

lebua Resort, Jaipur is a modern boutique hotel, spa destination, and event facility inspired by the area's color, vibrance and cultural splendor. Jantar Mantar, the Royal Observatory of Jaipur built in 1728, influenced the luxury resort's geometric shapes and structures, while the region's famous gem craft is reflected in its materials and intricate details. Each suite is styled in one of Jaipur's famous jewel colors of fuchsia, emerald green or blue sapphire. Each villa is surrounded by latticework that forms a jewel box-like courtyard.

Designer and Architect: Pronit Nath (GD-ARCH, Mumbai / Architectural Association London / RIBA-2), heads Urban Studio
